# One11 Residences - Exhibit A

**CHRONOLOGY OF EVENTS AND SUPPORTING DOCUMENTATION**

This exhibit is a summary of the chronology of events and supporting documentation relating to the September 30, 2025 incident and the circumstances leading to it.

| Date | Contact(s) | Event | Record Significance |
|---|---|---|---|
| Sep 9, 2025 | Tricia Fullerton, Owner | BuildingLink maintenance request submitted reporting medicine cabinet instability, hinge failure, and inability to close properly. Record Ref. A1 Record Ref. A2 | Earliest documented notice regarding the condition of the medicine cabinet. |
| Sep 17, 2025 | Tricia Fullerton, Owner | Written notice provided to representatives of the Sponsor, GFI Development Company, LLC, management personnel, brokerage representatives, and counsel regarding ongoing medicine cabinet defects, including concerns that the cabinet appeared too heavy for its hinges and may require replacement or outside assistance. Record Ref. A3 | Escalated written notice identifying ongoing operational and safety concerns before the incident occurred. |
| Sep 26, 2025 | Cliff Marks, Real Estate Salesperson at Brown Harris Stevens | Follow-up communication transmitted by the owner's real estate representative, Clifford Marks, requesting immediate attention to the reported defects after no substantive response had been received. Record Ref. A4 | Demonstrates that concerns remained unresolved despite prior notice. |
| Sep 29, 2025 | Alex Bass, Project Manager at GFI Development Company, LLC | The reported condition was acknowledged by GFI Development Company, LLC and maintenance personnel were directed to inspect the medicine cabinet. Record Ref. A5 | Reflects awareness of the reported condition immediately before the incident. |
| Sep 30, 2025 | Tricia Fullerton, Owner | A substantial glass-faced architectural panel associated with the medicine cabinet assembly detached from its mounted position and struck the owner in the head. Record Ref. A6 | Incident giving rise to the claim. |

| Date | Contact(s) | Event | Record Significance |
|---|---|---|---|
| Sep 30, 2025 | Tricia Fullerton, Owner | Emergency medical treatment obtained following the incident. Medical providers diagnosed a concussion and provided discharge instructions concerning monitoring and neurological symptoms. Record Ref. A7 | Initial documented medical treatment resulting from the incident. |
| Sep 30, 2025 | FirstService Residential | The incident was reported to concierge personnel upon the owner's return from the emergency department. | Establishes prompt reporting following the incident. |
| Oct 2, 2025 | Tricia Fullerton, Owner | Worsening symptoms including dizziness, lightheadedness, headache, and blurred vision required ambulance transportation and a second emergency medical evaluation. The treating physician documented a head injury occurring approximately two days earlier, noted a history of Postural Orthostatic Tachycardia Syndrome (POTS), and assessed the presentation as likely mild concussion syndrome. Record Ref. A8 | Documents worsening symptoms requiring ambulance transport and a second emergency evaluation following the head injury. |
| Oct 3, 2025 | FirstService Residential, GFI Development Company, LLC | Management became aware of the incident following direct communications from the owner to the property manager and broader management team. Record Ref. A9 | Reflects delay between initial reporting and management notification. |
| Feb 13, 2026 | GFI Development Company, LLC | Parker57 LLC provided a proposed Settlement and Release Agreement. The proposed agreement identified Parker57 LLC, GFI Development Company, LLC, and a broad range of affiliated entities, investors, consultants, insurers, attorneys, and related parties as released parties. Record Ref. A10 | Formal resolution discussions commenced and release terms were proposed. |
| Present | | The matter remains unresolved. No settlement has been reached and no release has been executed. | Current status of the matter. |
