Rella Electric – Terms & Conditions

Rella Electric provides a LIFETIME Craftsmanship Warranty.
We honor the integrity of our connections and workmanship.

This quote is valid for 30 days. After such time, values may be subject to change.

1) SITE CONDITIONS

A. If CONTRACTOR must obtain access to adjoining or neighboring properties during the course of work, CUSTOMER shall secure such permission. CUSTOMER shall hold harmless and indemnify CONTRACTOR, its employees, and its agents against all actions, damages, or consequences arising from such use of said properties, excluding negligence, including responsibility for securing said property and its contents during and after work.

B. CUSTOMER shall secure, remove, and protect all property and contents, including but not limited to adults, children, animals, fitness equipment, electronics, cabinets, fixtures, flooring, walls, tiling, carpets, drapes, furniture, and vegetation, both during and upon completion of work. CUSTOMER shall hold harmless and indemnify CONTRACTOR, its employees, and its agents against all claims arising from CUSTOMER's failure to do so.

C. CUSTOMER authorizes CONTRACTOR to move or temporarily adjust any items reasonably necessary to perform work, including but not limited to those listed above, and waives liability against CONTRACTOR for incidental damages resulting therefrom.

2) LIMITED WARRANTY

A. CONTRACTOR warrants that its materials shall be free from defects for one (1) year after performance, unless otherwise specified in writing. This warranty excludes defects caused by misuse, negligence, or acts of God (including, but not limited to, earthquakes). Manufacturer warranties supersede this warranty. Any warranty is void if any portion of the proposal is not completed by CONTRACTOR due to third-party contamination or intervention.

B. CUSTOMER must notify CONTRACTOR by telephone within twenty-four (24) hours of discovering any warranty claim. CONTRACTOR will respond with reasonable promptness during regular business hours (9:30 a.m.–4:30 p.m., Monday–Friday, excluding holidays).

C. CONTRACTOR shall not be liable for consequential damage, including water damage, arising from any defect or delay in responding to a warranty claim. CUSTOMER is obligated to mitigate damages.

D. CONTRACTOR shall not be liable for lost profits, incidental, indirect, special, exemplary, or consequential damages related to any work performed, regardless of warranty status.

E. CONTRACTOR waives the trip charge for troubleshooting directly related repairs.

F. CONTRACTOR will only quote repairs unrelated to its own connections and workmanship.

G. Parts are warranted for one (1) year.

H. Warranties are not transferable to new property owners.

3) UNFORESEEN CONDITIONS

A. CUSTOMER acknowledges responsibility for concealed or unknown physical conditions that materially differ from visible conditions. CUSTOMER shall pay for all labor, materials, and damages caused by such conditions, including repairs to CONTRACTOR's equipment.

B. CUSTOMER agrees to hold CONTRACTOR harmless from claims, damages, or expenses arising out of such conditions, regardless of whether caused in part by CONTRACTOR.

C. CONTRACTOR has no responsibility for asbestos or hazardous materials. CUSTOMER expressly releases CONTRACTOR from liability for their presence, removal, remediation, or associated costs. All remediation shall be CUSTOMER's responsibility and work shall cease until remediation is completed in accordance with applicable law.

D. In the event trenching is required, CONTRACTOR will notify "Call Before You Dig" to identify underground utilities. CONTRACTOR shall not be responsible for the cost of repairing unmarked or inaccurately marked underground utilities or piping.

4) RECOMMENDATION NOT PERFORMED

If CUSTOMER declines recommended options and a failure later occurs, CONTRACTOR shall be held harmless.

5) LICENSE, PERMITS, FEES

A. CUSTOMER (for residential projects) shall pay all taxes, permits, and fees unless otherwise agreed. If CONTRACTOR is required to secure permits, a service charge of $599 plus permit fees will apply.

B. CUSTOMER must provide timely access to inspectors and authorities. Failure to do so may incur additional charges.

C. Work required by authorities beyond the original contract shall be CUSTOMER's responsibility. CONTRACTOR will issue a new fixed-price proposal, and original balances must be paid in full before correction work begins.

D. CUSTOMER must forward all notices received from authorities regarding CONTRACTOR's work.

6) PAYMENT

A. All work is performed on a fixed-price basis, inclusive of materials, labor, and tax. No line-item breakdown will be provided.

B. Payment is due immediately upon completion, regardless of third-party inspections, additional work by other trades, or project delays unrelated to CONTRACTOR.

C. CUSTOMER shall not withhold payments for alleged defects or third-party claims. CONTRACTOR reserves the right to cease work for nonpayment and shall recover all reasonable expenses, overhead, and profit.

D. For commercial and new construction requiring rough inspections:

50% deposit due upon contract execution

30% due after rough-in inspection

10% due after work is completed

10% after final inspection

E. Subcontractors shall be paid within seven (7) days of CONTRACTOR's receipt of payment from CUSTOMER.

F. Change orders are due upon completion of work.

G. CUSTOMER authorizes CONTRACTOR to automatically charge the card on file upon project completion.

H. CUSTOMER shall reimburse CONTRACTOR for all legal expenses resulting from breach of contract.

I. If payment is not made within 30 days of invoicing, CONTRACTOR may file a mechanics lien. CUSTOMER shall reimburse CONTRACTOR for all lien expenses in addition to the unpaid invoice.

J. Progress Payments: For projects extending beyond four (4) weeks from deposit, if progress is delayed by CUSTOMER, the City, Con Edison, or other third-party conditions outside CONTRACTOR's control, CUSTOMER agrees to remit a progress payment proportionate to the percentage of labor and materials completed, even if final completion is pending.

K. All Rella Electric jobs that include patch and paint by Rella Electric. Once the electrical work is completed, 40% of the contract total is due. The client may hold 10% until patch and paint is finished. All remaining balances must be paid as scheduled.

7) RIGHT TO TERMINATE IN EVENT OF DISPUTE

A. CONTRACTOR may terminate work in the event of a dispute. CONTRACTOR shall be entitled to payment for all labor, materials, overhead, and profit rendered to date. If CUSTOMER cancels after signing, CONTRACTOR is entitled to 10% of contract value or $399, whichever is greater.

B. If CUSTOMER cancels due to utility-mandated additional work, CONTRACTOR shall retain $599 plus permit costs.

8) NOTICE OF DEFECTIVE WORK

CUSTOMER shall inspect work upon completion and notify CONTRACTOR within 48 hours of any alleged defect. CONTRACTOR shall have the first right to repair. Failure to allow such right voids all warranties. CUSTOMER may not withhold payment for alleged defects, and CONTRACTOR is not responsible for reimbursement of work performed by others.

9) SERVICE NOT COVERED

A. CONTRACTOR will only perform electrical work expressly listed in the contract. Carpentry, patching, tiling, landscaping, and other non-electrical work are excluded unless explicitly written into the agreement.

B. Correction of pre-existing violations is excluded unless expressly noted.

10) SCOPE OF AGREEMENT

This document constitutes the full agreement between CUSTOMER and CONTRACTOR. Amendments must be in writing, offered by CONTRACTOR, and accepted by CUSTOMER.

11) NOTICE TO OWNER

Failure of CONTRACTOR to commence work within twenty (20) days of contract without lawful excuse is a violation of Contractors License Law.

12) ADDITIONAL TERMS

A. CUSTOMER grants CONTRACTOR permission to display company signage and advertising during all project phases.

B. CUSTOMER agrees not to solicit CONTRACTOR's employees for outside work ("side jobs") for a period of one (1) year following the contract date.

13) RETURN POLICY FOR SPECIALTY MATERIALS

Specialty materials (fixtures, exhaust fans, generators, etc.) are subject to manufacturer return policies. CONTRACTOR is not responsible for reimbursement or replacement if manufacturers decline returns. CUSTOMER assumes responsibility for restocking, shipping, or additional charges imposed. CONTRACTOR will facilitate returns when possible but does not guarantee approval.

NOTICE: MECHANICS LIEN RIGHTS

Any contractor, subcontractor, or supplier providing goods or services under this agreement who is not paid may file a mechanics lien against your property. Payment of the agreed-upon price prior to filing may invalidate such lien. Customer is advised to seek legal counsel regarding rights under mechanics lien law.
